RM-KA-02

remote-controlled demining machine

For mechanical preparation of ground surface and removal of vegetation on all types of soils.

FEATURES:

- ✓ ANTI-PERSONNEL MINES
- ✓ ANTI-TANK MINES
- ✓ SIMPLE DESIGN AND USE
- ✓ ROBUST AND RELIABLE
- ✓ SIMPLE ON-FIELD MAINTENANCE
- ✓ ON-FIELD PROVEN
- ✓ STATE-OF-THE-ART EQUIPMENT
- ✓ EASILY TRANSPORTABLE

RM-KA-02 demining machine

RM-KA-02 demining machine

LxWxH 5.315x2.500x1.800 mm
Cleaning width 2.000mm
Cleaning depth 300+ mm
Surface pressure 0.64 kg/cm²
Total weight 14.5 t
Engine type: Perkins
Power 170 kW
Number of chains 36 pieces
Rotation speed up to 600 rpm
Working speed 0.3 to 1.2 kmph
Transport speed 5 km/h
Longitudinal slope 35°
Transversal slope 30°
TNT Resistance 7kg
Available in Armox and Hardox variant

- ✓ Medium-sized demining machine
- ✓ Fully remote-controlled
- ✓ Intuitive
- ✓ In-house developed
- ✓ Proven durability

RM-KA-02 is a radio-controlled demining machine designed for mechanical clearing mine contaminated areas by removing all types of vegetation (low, medium-sized and tall plants), treating the soil categories II-V (by splitting, digging and grinding) and destroying all types of antipersonnel and antitank mines (by detonating, splitting and grinding).
